Amendments to the Claims:

The following listing of claims will replace all prior versions, and listings, of claims in the application:

1. (Currently Amended) A connector comprising:

a <u>single</u> terminal fitting having a bent portion, <u>bent substantially in a right</u>
angle, the terminal comprising a first leg and a second leg that join each other at the bent
portion; and

an outer covering configured to cover a part of the terminal fitting, the part including the bent portion,

wherein the outer covering comprises:

an outer covering body made of resin; and

a reinforcement member disposed at a position where restricting a deformation of the terminal fitting caused by an injection pressure acting thereon in molding the outer covering body, wherein

the reinforcement member is disposed at a position adjacent to the bent portion, and

the reinforcement member is disposed at a position of an inner side of the bending direction of the bent portion, and abuts both the first leg and the second leg.

- 2-4. (Canceled)
- 5. (Original) The connector as claimed in claim 1, wherein the reinforcement member is made of the same material as that of the outer covering body.
- 6. (Currently Amended) The connector as claimed in claim 1, further emprises comprising a sealing member configured to seal between the outer covering body and the reinforcement member.

- 7. (Original) The connector as claimed in claim 1, wherein he outer covering body and the reinforcement member are adhered with an adhesive agent.
- 8. (Original) The connector as claimed in claim 1, wherein the outer covering is configured to be in close contact with the surface of the terminal fitting.
 - 9-12. (Canceled)
